

Communication between the school, home and community is an integral component of a safe, secure, and enriching school community.

At Sunset Elementary various communication systems are in place to assist our families as follows:

- Connect-ed Messages
- Sunset Elementary Mobile App
- School website: <https://sunsetinternationalschool.com/>
- M-DCPS Mobile App
- Twitter @Sunset_Elem
- Instagram @sunsetinternationalmdcps
- Email communication with your child's teachers

Through the School App, you will be able to access weekly information distributed by the school and the "Go Green" Communicator. It is very important that you check the communicator on a weekly basis to stay abreast on the latest school information.

Please notify your homeroom teacher if you do not have access to a computer/internet. Sunset Elementary will continue its "Go Green" Thursday Communicator process, beginning Thursday, August 18, 2022. Sunset families will be able to access the Communicator through the Sunset Elementary Mobile App or the school website. You will need to have Adobe Acrobat Reader to open/view the "Go Green" Thursday Communicator link. A free version of this software can be downloaded from <http://get.adobe.com/reader/>.

Should you have any questions or need additional information, please feel free to contact your child's homeroom teacher via email or contact the school at 305-661-8527.
